THE REDCLIFF REVIEW. THURSDAY, JUNE 23, 1927.

Looks Like A Big Day Here Dominion Day

ALL DAY PROGRAM FOR OLD AND YOUNG HAS NOW BEEN ARRANGED—CROWD COMING FROM ALL DIRECTIONS FOR THE CELEBRATION—SERVICE SUNDAY.

If one is to judge from reports coming from all quarters, Redcliff will see one of the biggest crowds in its history here for the Diamond Jubilee celebration and annual Stampede on Dominion Day, July 1st.

Redcliff will be the only centre in the district to have a real all-day celebration for old and young on that occasion.

In the day's program ample provision has been made for the observance of the Diamond Jubilee. The whole morning will be given over to this and will be held on the school grounds where a program of patriotic choruses, pageants and address will be given after which there will be athletic events for children in all departments. Diamond Jubilee medals will also be distributed and every school child treated to ice cream and candies.

In the afternoon we are now assured of a good program of horse races, bucking contests, steer riding and athletic events for adults. Bids are coming from all quarters. Several novelty events will also be introduced making a full five hours of excitement, fun and meeting old friends.

A girls' basketball game will also be played at the conclusion of the program.

The athletic sports at the Stampede grounds will commence promptly at one o'clock and the horse races at 1:30. Those taking part in any of the advertised events in these lines will be asked at the conclusion of the program.

In the evening there will be the big bon fire followed by a dance. This will surely be a day crammed full of fun for young and old. Come with the crowd.

Those coming from a distance can stay over night in Redcliff and take in the horse races at Medicine Hat on Saturday then return to Redcliff for the Diamond Jubilee open air service on the school grounds on Sunday afternoon on the grounds on Sunday, as the lengthy program makes it necessary that everything be run on time. Every accommodation will be provided on the grounds for large numbers of people. There will be booths for the people and W. Nussey will have a tank of good clean water for the stock. The part of the grounds where bucking and steer riding and rider riding will take place has all been fenced in with 6-foot post wire making it safe for spectators. Every thing possible in the way of looking after the safety and comfort of all has been attended to.

Something for Nothing At Legion Carnival

To Be Held in Medicine Hat, June 30 and July 1st and 2nd

On each of the three big nights of the Carnival at Medicine Hat, there is going to be a big free feature. June 30th, there will be a Pie Eating Contest, starting at 7:30 p.m. the same time as the Carnival opens (this contest will be open for boys from 14 to 17, and entry, which is free, can be made by sending in names to Mr. J. Wright, care of the Canadian Legion, Medicine Hat. The first 24 entries only, will be accepted. The prizes are, First, a grand home built; second, a complete Merc car set.

On July 2nd, commencing at 7:30 p.m., will be a Baby Show. There will be two classes, viz. from one to six months, and from six to twelve months, the prizes in each case being a Silver Loving Cup. Entries are free and are to be made to Mr. J. Wright.

There are the leading free attractions, but there will be many others in addition to the usual carnival features. Note that all entries for the above contests close on June 30th, and if you want to enter send in your name soon.

U.F.A. Sunday is Observed at Bowell

Is Well Attended—Rev. R. N. Matheson Conducts Service

U. F. A. Sunday was celebrated at Bowell last Sunday afternoon. All most all people in the district being present. During the service Mr. McGowan of Redcliff, rendered a piano solo, Mrs. Panceast and Mrs. A. Lem on sang a duet, and Miss Wallace played the accompaniment. After the service by motion the pastor was thanked for his address.

From an historical background, the speaker pointed out that while it was economic problems and conditions that called the organization into being, the leaders of the U. F. A. movement saw that the problem of rural Alberta was social and moral as well as economic. They realized that education in the duties and responsibilities of citizenship, especially among young people, was vital to the welfare of the province. Further, the constitution emphasizes and makes provision for the fullest measure of education for every child, and they have for their object the welfare of all people of our province. Those present were urged to study their constitution and strive to make effective its lofty aims and principles.

Vacation Bible School To Start Here in July

Will Be Conducted for Two Weeks in the School

On Monday evening a deputation representing St. Ambrose, the Church of the Brethren and Gordon Memorial met the local school board with a view of securing the use of the school building for a Vacation Bible School. The plan was to hold this Bible School during the first two weeks of July under the leadership of the three local ministers. Although this is a new movement in Redcliff, it has been explained and granted the use of the school.

It is hoped that parents will take a sympathetic interest in this enterprise. The Vacation Bible School is simply an extension of the regular school year, but beginning at 9 a.m. the program will continue until 11:30 a.m. and will consist of worship, graded Bible study, directed games, singing and some craft work. In hundreds of towns and cities where such schools have been conducted, the children have remembered the Bible School as the delightful event of the summer season.

All children of school age may enroll. The ministers are undertaking this on behalf of the children of the district and have received considerable work for them. They have a right to expect the necessary co-operation to make success possible.

WHEAT POOL NEWS

The campaign for signing of the second series of Wheat Pool contracts is under way and meetings with excellent success. Every district is being organized and it is planned to have every grain producer represented.

The Holland Canada Mortgage Co., with head office in Winnipeg, have signed a second series Wheat Pool contract covering about 35,000 acres of Alberta farm land, one-third of which is in wheat. The management of this company expressed complete satisfaction with the operation of the Wheat Pool since its inception.

L. McKinnon, well-known southern Alberta old-timer, has signed a second series Wheat Pool contract covering 2000 acres of land at Dalnauk.

The L. K. ranch, of which Mr. McKinnon is president, has placed over 4500 acres under a second series contract.

The L. K. has land at Dalnauk, Crowfoot, Bassano and Quatrepoint.

The Bassano Board of Trade passed a resolution expressing its favorable opinion of the principle involved in the co-operative marketing of wheat and other grains and its willingness to assist in the drive for the signing of the second series of Wheat Pool contracts.

The Saskatchewan Wheat Pool has recently obtained a sign-up of close to seven million acres for the second series contracts.

Reports from all over Alberta regarding the progress of the Wheat Pool second series membership drive are very encouraging.

GORDON MEMORIAL NOTES

Next Sunday morning, June 26th, at 11:15 o'clock, the Diamond Jubilee of Confederation will be celebrated in Gordon Memorial church, with a special patriotic service entitled "The Message of the Bell." The following words by Premier McCreight (Rex) will explain why the title has been chosen:

"On July 1st, we propose to present the historic event of the celebration of the Diamond Jubilee of Confederation by singing, for the first time on that day the fifty-three bells which the nation is composed. We hope that His Majesty the King from the capital of Great Britain will graciously inaugurate the occasion by causing to ring forth from the capital of Canada the first peal of bells which the world has ever listened. Here surely is a symbol of our allegiance to the crown, our allegiance held in common by every part of the empire. By the wonderful development of radio broadcasting we hope that the peal of bells will be heard though its echoes may yet be faint, not only in Great Britain, in Ireland, in the distant dominions of Australia, New Zealand and South Africa, and in the great empire of India as well."

This service authorized and prepared by the leaders of our church will be carried out from coast to coast by the congregations of the United Church of Canada, and will be inspired by a fitting inspiration to the Jubilee celebration which is continuing and thrilling all our heart. The message of the bells will include: 1. A Message of Unity. 2. A Message of Loyalty. 3. A Message of Patriotism. 4. A Message of Brotherhood.

It is expected that as far possible, every person associated in any way with Gordon Memorial church will be present and take part in this special service of worship.

INDIAN POPULATION IS NOW INCREASING

The Indian population of the three prairie provinces continued to increase during the past year, according to the report of the Dominion Department of Indian Affairs. The present Indian population on the reserves is distributed as follows: Alberta, 9,601; Saskatchewan, 13,466; and Manitoba, 11,775. There was a natural increase in this area during the year of 268. In addition here are a number of Indian bands in far northern districts which are not yet under treaty. These bring the estimated Indian population of the three provinces up to 26,840.

Vice-Regal Party Visits School Car

1. Mrs. J. W. Vincent and Lady Willington. 2. Entrance of School Car. 3. C. P. School car en route to visit of the Mayor.

When His Excellency Viscount Willington arrived at Redcliff, he was met by the Mayor and the school car. The school car was a vintage car, and the Mayor was in a suit. The school car was en route to visit of the Mayor.

Stampede Meeting

A meeting of the Stampede Executive and all committees in connection with the Diamond Jubilee celebration will be held in the Legion reading room on Monday evening next. For the purpose of putting the finishing touches on the big Dominion day program. A full attendance is desired.

Redcliff Plays Tie Game With C.P.R.

Is the Five Runs Cup—Lectured Team Had Won of Play

The Redcliff football team showed up to good advantage in their game last Friday evening with the C.P.R. in the Five Runs cup. Although the game ended in a draw, one, Redcliff had much the best of the play throughout, and the players showed a vast improvement in their playing powers. The game started off very quietly and with much excitement, but before it proceeded far Redcliff boys got into their swing and after 8 minutes play J. Davies scored on a nice work-in by Dutton and Maxwell. From this to the end of the period the play was close with honors fairly evenly divided. The visitors tried hard to equalize but the home defense was too much for them and no more goals were scored in this period.

Shortly after the commencement of the second half, the visitors made a nice rush down the field and Fyfe scored with a nice shot. This seemed the shot but Fyfe followed it up quickly and succeeded in placing the ball in the net before the goalie recovered. With the score now a tie Redcliff made a desperate effort to again get in the lead. For the rest of the game the play was very much in their favor. They made a down attack in as many minutes and Maxwell for the visitors had a lovely time. Had it not been for his safety of save the score would have been decided as was the play at this point.

Redcliff was very unfortunate in not having two or three more goals in the last period. By their play they should have had them but credit must be given to the visitor's goal for keeping the score down to a tie.

Redcliff plays the next game at the Hat tomorrow evening against the Calhoun in the Five Runs cup.

Yesterday was the longest day of the year. The sun shone for 16 hrs. and 44 min.

Joint Public Service Here Sunday July 3rd

Will be Held on the School Grounds At 2:30 p.m.

Arrangements have been completed for a Diamond Jubilee public service here on July 3rd. The service will be held on the school grounds where resident ministers and other leading citizens will take part. The service will commence at 2:30 p.m.

Programs along the lines suggested by the National Committee have been printed and will be distributed at the service. These programs contain the lyrics, readings and prayers to be used during the service and arrangements have been made to have an orchestra of local talent and the combined choirs of local churches lead the singing.

Similar services will be held throughout Canada at same hour and are being held as a national Thanksgiving on the occasion of the Diamond Jubilee.

It is hoped that every one in town will attend this service and a special invitation is extended to farmers in the surrounding district to join with us on this occasion.

Redcliff Footballers Play Tomorrow

In Medicine Hat With Calhoun in the Five Runs Cup

Redcliff football team is drawn for a game tomorrow (Friday) evening with the Calhoun in the Five Runs cup. The game is called for 8:30 and promises to be one of the best of the season so far. Redcliff's lineup is as follows:

Thomson; R. Pickering; J. Lacey; Thomson; G. Davies; R. Pickering; J. Lacey; Appleton; McKay; A. Dutton; J. Davies; Maxwell; Phillips; Henderson; Reserves: Waters, Sangster; T. Dutton.

The Imperial Oil Company Files on Twenty-five Thousand Acres

Interests understood to be the Imperial Oil Company filed on 25,000 acres of land in the new Cypress Hills field at the Lethbridge land office yesterday. The leases filed in township 7, range 8 to 9 and are adjacent to the 80,000 acre block covered early this year by the lower interests of Toronto, Bruce, Harbourside and all claimants for the province of Alberta, was connected with the extensive filing made by the Toronto group, who, it rumormongers, own English capital—Medicine Hat News.

Bad Fire on Bending Farm This Morning

HOUSE AND OUT BUILDINGS BURNED TO THE GROUND—NOTHING IN HOUSE SAVED—LOSSES BETWEEN \$1500 AND \$2000—NO INSURANCE.

About eight o'clock this morning the breaker out in the living quarters of J. F. Bending, who farms just west of the town, and in the house and out buildings were burned to the ground. The loss is estimated at between \$1500 and \$2000 with no insurance.

Mr. Bending had just finished his breakfast and had gone out to repair some fence when the fire broke out. The house was facing the house and noticed it suddenly burst into flames. As there was no fire-fighting apparatus on the premises, the fire spread very fast, nothing could be done to save the buildings and the southwest wind blowing at the time fanned the flames to the food and cattle sheds, which were also completely destroyed.

The house was a three-roomed cottage about 24 feet square and in it were several sets of harness and old farm articles besides the furniture and all Mr. Bendings personal effects. Nothing was saved.

Mr. Bending is of the opinion that the fire started from a defective gas jet which he left partially open when he left the house.

The Bending farm is what is known as the old Star ranch. It was the first farm started in this district and at one time had the finest buildings in southern Alberta, but fires from time to time have reduced them considerably. In his early days the large dwelling house was burned to the ground. There still remains two large barns and a small cottage.

This year Tracy Bros. new arrivals from Washington have been sent to Mr. Bending, but the latter had been in one of the cottages until this morning.

Important Decision Left to the Review

Football Fans Leave Settling of Bet To This Paper

The other evening a number of Scotch football fans got into a heated argument over the record of the Celtic and Rangers football clubs, and finally thousands of dollars were involved. The question of settling the bets was left to the sporting editor of the Redcliff Review, but as our sporting editor was not quite clear on the point raised he telegraphed to the Glasgow Evening Times and got the following reply:

"The last occasion on which Celtic defeated Rangers in a League match was at Inver, 1920-21. Result, 2-0. The last occasion on which Celtic defeated Rangers at Parkhead was 1914-15. Result, 2-1."

We can guarantee that this information is absolutely authentic and rule that all bets be paid accordingly. If the losers refuse to accept our ruling we would suggest a ten foot walk with Margalo of Queensbury rules.

Work at Standstill At Roth Oil Well

Mrs. Are Waiting Instructions from Head of Company

Ever since receiving word to discontinue operations on the Roth oil well here, nothing further has been done in the shape of renewing the casing, derrick or machinery. The men are waiting for further instructions from Mr. Roth. In the meantime the great educational work they were pursuing in this district. Mr. McGally presented their last lesson, the 15th book of photographs of the school car and the chance to win a prize by making a point on the 125 miles of tracks along which it moves.

The coroner's jury investigating the deaths of two Winnipeg women is planning the guilt for their death on "Victim Wilson," the "strangler." His preliminary trial takes place today.

RED CROSS CAMPAIGN

THE Canadian Red Cross, on Empire Day entered on a nation-wide campaign to raise \$1,000,000 with which to carry on its comprehensive peace time program in the interests of the returned soldier and the health of the citizen generally, a program of national welfare on which it has already spent a sum of over \$7,000,000 since the war.

Chief Commissioner J. L. Biggar of the Red Cross Headquarters, states that plans for the campaign are well forward in all provinces.

The Society will make its appeal directly on its record of accomplishments in its services for the disabled soldier, its 39 Outpost Hospitals, the Seaport Nurseries in Halifax, Saint John and Quebec, the Junior Red Cross now numbering in Canada 140,000 children engaged in the pursuit of health for themselves and handicapped children; the Disaster Relief activities of recent times, and the Home Nursing Training which has been extended to over 12,000 women and girls in the last three years.

Even the Medicine Hat News does not approve of the action of the Minister of Justice in liberating Baldy Robb, the man whom it describes as the political malefactor in Northern Alberta. It refers to the matter as "a rotten plank in the Liberal platform." The News is right.

The fact that the U.S. "strangler" was run down a few days after landing in Canada, and after he had been carrying on his dastardly crimes in his own country for several months, is a distinct credit to the Canadian police forces. It should also serve as a warning to other criminals from the south to keep out of this country.

Churches

ST. AMBROSE CHURCH

Mr. G. W. Rhodes

The Red Cross

appeals to YOU for support

SINCE the War, the Red Cross has disbursed over Seven Million Dollars for the Soldiers, Women, Children and Frontier Families of Canada.

About half of this has been spent for disabled soldiers—half in the other services of the Society about which you have been told. The Treasury is almost empty.

\$1,000,000 Needed Now for Red Cross Work

The Red Cross brings cheer to our disabled warriors and their families. It stimulates the children of Canada to healthy living and good citizenship. It relieves suffering, and brings skilled attention to Canada's frontier districts remote from other aid. Its work is indispensable.

It now appeals to YOU, as a patriotic and humane Canadian citizen, to contribute generously to its need for funds.

THE GREATEST FORWARD STEP

IN THREE THOUSAND YEARS

The Wheat Pool

H. W. Wood, Chairman of the Board of Directors of the Alarming this marketing organization, the Wheat Pool, says that in 1900 the farmers took the greatest step forward in three thousand years.

The Wheat Pool enable wheat producers to handle their wheat in their own way and sell it themselves in their own way. The entire force of this great organization is directed towards the desired end of bettering the conditions of the western grain grower.

Every grain grower who joins the Pool now adds that much strength to the Organization. The stronger the Wheat Pool is, the better for Western Canada.

The Second Series of Wheat Pool Contracts are now ready.

THE REDCLIFF REVIEW

Straw and Sawdust

Making Straw Pulp on the Farm and Tiles at the Saw Mill

Canada is a very progressive country, and new inventions and improvements constantly receive every encouragement here. It is not the newer countries that always lead the way, however, and the National Research Institute, which is the research arm of the Department of the Interior at Ottawa, draws attention to a very interesting report from France, taken from the files of the Canadian Trade Commissioners in Paris, in which it is told how two articles of practically no economic value here have been put to use by the scientists and thrifty French. Two substances in question are straw and sawdust, substances which Canada possesses in possibly greater quantity per head of population than any other country. The two products which the French obtain from these raw and hitherto waste materials are tiles and paper pulp. The processes are said to be simple and easy to adapt to the conditions of the country. The material is most cheaply available.

A process by which light and beautiful tiles may be made from sawdust (or sand) and inexpensive chemicals is said to be in successful operation. No plaster, lime, or other expensive material is required, nor heat nor pressure equipment required. The material is spread over the mould, then the tiles which have been reduced to a sort of batter, is poured over it till the desired thickness is reached and the whole allowed to set. In twenty-four hours the tiles are hard enough to remove from the mould and within a week are ready for use. Tiles of any size or thickness may be made and reinforcing may be introduced if required. Many tiles have been claimed for this product which in France is usually made from ordinary sand rather than the mould and within a week are ready for use. Tiles of any size or thickness may be made and reinforcing may be introduced if required. Many tiles have been claimed for this product which in France is usually made from ordinary sand rather than the mould and within a week are ready for use.

For many years straw has been a waste material for the sawboard, overcast and wrapping papers, etc., but the expense and the inconvenience in transporting the straw to the factory has been against its proper utilization. The new process is claimed to make it possible to transform the straw into pulp on the farm, thus saving freight and handling, since it is required over three tons of dry straw to make one ton of pulp. In addition it leaves no waste, no ash, no dirt, no smell, and is so simple and so quick that it is said to be a process sufficiently simple to permit of its being carried on right at the source of supply without the necessity of complicated machinery or expert supervision.

The possibilities of these two processes should be of value interest to Canadian farmers and wood-working factories. If they can be applied to Canadian conditions, and there is considerable evidence to show that the process can be applied in France, it is said to be a new and valuable source of income will have been indicated for one of the most idle industries in the country.

Poison Honey Taken

From Alpine Flower

Cattle Seldom Apprehend Blisters Because of Injurious Effects

Poison or poison honey is taken from the Alpine rose, a form of rhododendron whose blossoms give off an odor that causes dizziness in humans beings. Cattle seldom apprehend the flower because of its injurious effects.

Italy, in one of its wars, wrote about this honey. Xenophon in the Anabasis tells of the trouble that befell Greek soldiers after eating the poison honey. Strabo also refers to it when he writes of the Hippiasmones overpowering Pompey's troops by placing honey-dipped clubs along the paths taken by the soldiers.

Lady—"What are those plants?"

Man—"They are poison plants in full bloom."

Lady—"How interesting! How long will it be before the figs are ripe?"

Lorna Doone never lived and the romance of that name was founded on a myth, according to research workers.

If it was Doone's because a woman because she is pretty or because she has money, it is pretty sure sign that she is here to live.

Grand Magistrate in Lake Huron was regarded as the home of despair by the sailors by North American Indians.

Nicholas Flood Driven

A Notable and Unique Figure in Canadian Public Life

Among the brilliant class of Old Countrymen who early in life came to Canada and adopted it as their country, was Nicholas Flood Dravin, an educated and refined Irishman, who for many years made the Middle West his home. With the exception of Chief Justice Tassell, of Saskatchewan, and Dr. Brett, late Lieutenant-governor of Alberta, he was the most conspicuous pioneer figure in this country.

Dravin was born in Killarney, Ireland, where his father's regiment had been to be stationed at the time, in 1812. He received a first-class classical education and in 1845, was called to the Middle Temple Bar. During the Franco-German war he was a correspondent of the Irish Times and London Standard, being wounded at the siege of Metz. A spectacular incident of his war experience was his escape by a balloon from Paris at the time of the brief Communist regime.

After his return from the front he joined the Irish Literary Club, and was elected to the chair of the club.

In 1871 Dravin was identified to the public as a writer of the Irish Times, and in 1882 the C.P. Dravin was elected to the chair of the club. He was elected to the chair of the club. He was elected to the chair of the club.

New Plane Safe As Liner

Could Cross Ocean in 16 Hours Carrying 170 Passengers Says Expert

Professor Rumpier, head of the Rumpier Airplane Construction Company of Dusseldorf, Germany, who is considered one of the best authorities on airplane construction, believes transatlantic flights can be put on a commercially practical basis by building planes many times the size and power of the present ones. His plans call for a liner of the Airplane capable of crossing the Atlantic in sixteen hours, carrying 170 passengers, and propelled by a battery of ten motors, each generating 1,000 horsepower.

His estimates show any four men could cross to America without offering the passenger a thing more than a cup of tea. The plane would be built of metal, and would be built of metal, and would be built of metal.

He virtually discarded designs for a 100-passenger plane, planned a year ago, in favor of the larger craft, believing the present plan will soon dwindle within a decade.

Professor Rumpier says he has worked for the last five years on his new plane. With a machine at the time trans-ocean flying would not entail more risk than crossing by air, he believes. Even in case of a forced landing at sea the craft would be so constructed that floating quarters until help was summoned by radio.

Air Machine Resembles Bicycle

Invention of Andover Man Is Not Yet Perfected

James E. Palmer, of Andover, England, an electrical engineer, has become known here as "bicycle man of the air."

Palmer for months has been making experimental flights with a one-man propelled flying machine which is a rough design of an air bicycle which he hopes soon to perfect.

Numerous flights of a mile or more at the height of 20 or 40 feet have been made by Palmer in his "aerial tricycle," with fan-shaped paddles strapped to the arms and supported by a small balloon.

The "air bicycle" which is a building on the bicycle in construction and the prospects at the "flying bicycle" now being bright, in the hands of the London, one of the first papers to be published in the provinces of Saskatchewan and Ontario. His influence was started to the full in directing the destinies of Asinofsky, as it was then known, but in 1912 the C.P. Dravin was elected to the chair of the club.

He was elected to the chair of the club. He was elected to the chair of the club. He was elected to the chair of the club. He was elected to the chair of the club.

Wealth in Dead Sea

Extraction of Mineral Salts Will Yield Rich Revenue

Once more the project of treating the Dead Sea for its mineral wealth is to the fore, and this time it has the solid endorsement of the British Colonial Office, which is going to grant a twenty-five-year concession to a syndicate. The water is to be pumped into pans ashore, and there evaporated, leaving various salts as a residue. The separation of these salts would be a comparatively simple chemical process. In addition the construction of forty miles of new railway through the Jordan Valley to connect with the Beirut line, which is an essential transportation of the salts recovered.

It has been taken from the Dead Sea by the most primitive methods for centuries, and sold in Jerusalem and elsewhere. In fact, the tribes of Bedouins who inhabit the arid region in which the Dead Sea lies have carried on a profitable business in the smuggling of salt for generations. It was a simple matter to get the water to the shore, and then to transport it to the shore, and then to transport it to the shore.

These figures do not include imported salts and flowers, nor salts and flowers, nor salts and flowers, nor salts and flowers.

Armistice Blotter to Be Auctioned

No Bid Under \$5,000 for Historic Piece Will Be Considered

Doubtless the most valuable piece of battle memorabilia ever sold will be the piece which is presently to come in the auction block, and for which it has been estimated that not less than £1,000 will be realized.

It is the blunting pad which lay on the writing table in the saloon car of the Marston Portland, on November 11, 1918, near Meuse, in the forest of Compiègne, and upon which the armistice which ended the World War I, entirely legible, though, of course, no longer so legible as it was at the time.

The "armistice blotter" is a small piece of paper, and is a small piece of paper, and is a small piece of paper.

It is a small piece of paper, and is a small piece of paper, and is a small piece of paper.

Making Canada Beautiful

Statistics Show Millions Spent Yearly on Flowers and Shrubs

During the past year a considerable contribution has been made to the beautification of Canada. This is shown in a report issued by the Canadian Government Bureau of Statistics which states that 29,000,000 trees were purchased last year from wholesale growers in the Dominion alone. Nine hundred thousand other ornamental trees and shrubs were bought from Canadian growers to be planted about the houses. Some millions of dollars worth of plants and many thousands of bulbs, and of the dozen varieties of cut flowers raised by florists, the flower-growing industry in Canada, paying over a million and a quarter dollars for them.

These figures do not include imported plants and flowers, nor plants and flowers, nor plants and flowers, nor plants and flowers.

It is a small piece of paper, and is a small piece of paper, and is a small piece of paper.

Largest Squared Stones

In Syrian Ruins

Monster Blocks Were Used in Building Temple of Sun

The largest squared stones ever used for building purposes are those found among the wonderful ruins of the Temple of the Sun, at Baalbek, in the north of Syria.

One of the walls, 19 feet above ground level, are three square blocks, all over 63 feet in length and 18 feet in height.

Dual Purpose Cow Is Best

Type Needed Will Come Near Old Standard of Barreling and Milking

What is a farmer's cow? Ask the Farmer's Sun and you'll answer: All of them. The cow is the backbone of the old-fashioned "farmhouse." If her father or husband dies—the cow still stands the fall and produces a good calf besides. What if her production was away behind that of the modern Holsteins milking machine, or the cow that is really laid on the back of her steer offspring as we see it on the wonderful Irish Burren, or the cow that is really laid on the back of her steer offspring as we see it on the wonderful Irish Burren, or the cow that is really laid on the back of her steer offspring as we see it on the wonderful Irish Burren.

Interesting Local Items

Geo. Myers has purchased the house at First Street, recently owned and occupied by A. J. Leumann.

Owing to a mishap at the Pressed Brick plant when the large driving belt was put out of commission, the plant has been closed down for the past few days. The new belt has to be here from the east.

The auction sale held yesterday at C. A. Buck's farm just outside town attracted a good crowd and the sale was successfully conducted by W. D. Wilson. Besides the household furniture and implements, a number of fine horses were sold at fair prices.

It now looks as though Redcliff will have one of the biggest crowds in its history, in view for the big celebration on Dominion Day. It is the only centre in this district to have a real man's celebration for the occasion.

On Wednesday afternoon June 22, a check, Mrs. MacMunn, President of Medicine Hat, Redcliff will speak to the W.M.S. and other ladies and friends of Gordon Memorial church. There will also be a program of musical numbers, after which lunch will be served and an opportunity given to the ladies to meet the President.

Miss Wobler and Miss Blum of Minneapolis are spending a few days in town this week guests of their cousin, Mrs. R. H. Sellners. They are on their way to California. Mrs. Sellners entertained a number of ladies yesterday afternoon in honor of her guests.

The Jubilee sale conducted by the J. W. A. in the Parish hall last Saturday under the direction of Mrs. Wm. Champ, was a good success. Great credit is due to Mrs. Champ with her helpers and in the girls for the arrangements and the conducting of the sale could be afternoon tea. Thanks is also due to those who so kindly encouraged the venture by their attendance and support.

Mr. Harkness, a horse dealer of long experience has been in this district buying horses recently. He is well impressed with the class of horses raised around here and is seriously considering taking up land here himself. Some time ago he bought a car load of fine heavy horses from D. Duers and this week he purchased the load from Messrs. Cunningham and Paul Walker, ranchers north of here. Mr. Harkness says they are as fine a bunch of horses as he ever bought.

GERMANS SALVAGE BIG BATTLE SHIP AT SCAPA FLOW

Eight years after she was sunk by her German crew, the 23,000-ton battleship *Goeben* has been raised from the floor of Scapa Flow, where she lay under 70 feet of water. This feat, which is considered one of the greatest in the annals of ship salvaging, was accomplished after months of planning and hard work by the salvors, Cox & Danks. The *Goeben* is the biggest ship ever raised in this fashion.

TORNADO DOES DAMAGE IN SASKATCHEWAN

A terrific tornado passed through the Wynyard and Wilkes districts of Saskatchewan last Saturday. The farm house of G. P. Gunnerson, was struck when the family was at lunch. Mrs. Gunnerson was killed and the other seven members of the home were badly injured. Several other people of the district were also badly injured. The tornado was accompanied with hail and rain which did considerable damage to crops in the Farm Lake, and Telford districts. At Drumheller, Alta, there was a heavy hail storm which is reported to have driven the crops into the ground.

MONEY LOST

Will the person who found a sum of money at the Bank sale Wednesday kindly communicate with, W. D. Watson, Auctioneer 329 North Railway St. Medicine Hat.

Remember With Pleasure No Regret

But your matchless between your fingers, trust on your favorite this plant trees as a windbreak, say you are very careful, then think and you will realize the risks are still on and that you need to make sure against loss by lightning and wind storm, by insuring through Kettling Johnson who knows you would rather insure \$2,000 or \$5,000 in protection for 3 years against loss of \$50,000 by windstorm or fire. Information can be supplied free and with pleasure in connection with casualty insurance, or

Here and There

The estimated gross agricultural wealth of Canada is \$7,568,237,000 according to the Department of Interior.

Concluding a stay in Canada on their ranch near Kamloops, the Marquess and Marchioness of Winchester, accompanied by Lady Winifred Cecil, sailing from Quebec recently on the Canadian Pacific steamer *Albatross* for England.

An airplane passenger and freight service to the central Manitoba wine area was inaugurated on June 1 by the Western Canada Airways Limited, making the first commercial service to be operated in the Province.

Foundation work is proceeding rapidly on the new addition to the McNeill, which when completed, will have a storage capacity of 4,000 bushels of grain, and the present capacity of 4,000,000 bushels.

A total of 1,254 English boys have already been moved from the Old Country and placed on farms in Quebec and Eastern Ontario by the British Immigration and Colonization Association according to the figures given at the annual meeting of that organization.

Just while you think of it, take a look at the label on your paper.
